

TESTIMONIALS

December 2007

APTS events are very professionally run. It was through a colleague Mr. Patrick Ang that I come to know of the 2007 year-end APTS get-together and speakers engagement. It was well run and the speakers especially mountaineer, adventurer and motivator David Lim inspired me tremendously with his passion and enthusiasm.

As usual Patrick is a seasoned pro to host the event and the networking was a great insight to the professionalism of the APTS members. I look forward to attending more events.

Delighted to see the passion and teamwork that went into the meeting I attended in December, and in which I was privileged to deliver the presentation "How to Make It as Professional Speaker ". Keep up the good work!

I have had the fine opportunity of being invited to your APTS monthly "get-together fellowship sessions" soon after graduating from the Professional Trainers Course conducted by IPMA-Quest Group.

Last Friday's session at the PSB Building at Science Park Drive, was certainly the best -- in terms of attendance, programme, ambience and certainly food as well. OK, it was meant to be a year-end project.

My partner and I were thrilled by the pep talk from mountaineer David Lim, the jokes from author Rewa Mirpuri, and the illusions from magician John Teo. Publisher Patrick Ang made a very entertaining M-C. The level of general excitement in the room was pretty obvious.

We bought an endorsed book from Mirpuri, an endorsed DVD from David and even a calendar from the auctions that followed. It was an enjoyable evening. Where else can one get one whole night's entertainment for a mere \$15 contribution per person? Yeah, we certainly look forward to your next function.

Meantime, I do seriously intend to sign up and am even considering giving a pep talk (tentatively, Success thru' Fear Management), in the near future. I believe that both would come to pass. Soon!!

I attended my first APTS meeting last night being the year end party / get together. I was pleasantly surprised to meet friends there whom I have not seen for some time. It was also heart-warming to see the team of leaders and committee members playing their different roles in a well organized, professional manner.

This is evident in the running of the various items and the different ways they made all of us feel welcomed. The evening was very enjoyable as we had a variety of things going on including an interesting and inspiring presentation by the guest speaker David Lim, Humour by Rewa Mirpuri, Magic Show by John Teo and the Fun Auction by Patrick Ang.

The atmosphere was friendly and supportive and really ideal for sharing and networking among like minded people who wants to made a positive difference in people's lives
